PROFILE SUMMARY

Motivated and dedicated Java developer with a strong foundation in programming principles. Skilled in **HTML,CSS,JS and React**. Passionate about creating efficient and reliable applications. Strong problem-solving and teamwork abilities. Eager to contribute to web development project.

PROJECTS

WAY2NEXT - COLLEGE FILTERING WEBSITE

HTML , CSS , JS , REACT

2024 MAR - APR

- This project aims to create a React-based college filtering website. Users can filter colleges by location, course, fees, and ratings, with the results displayed in a card layout. Pagination will help navigate through results efficiently. Data is fetched from an external API based on the applied filters and current page. Key features include dynamic filter functionality, aesthetically pleasing card views, and seamless pagination controls, providing an interactive and user-friendly platform for searching and browsing colleges.

PORTFOLIO WEBSITE - PROFESSOR

HTML , CSS , JS

2024 JAN - FEB

This project involves creating a personal portfolio website using HTML, CSS, and JavaScript. The website will be mobile-friendly and include sections for a profile, gallery, and navigation menu. The design will leverage CSS Flexbox and CSS Grid for a modern, responsive layout
